Convent of Mary Immaculate

KEY WEST, FLORIDA

**A Boarding and Day School
for Girls; An Ideal Location**

THE Convent of Mary Immaculate, situated at a convenient distance from the heart of the city, commands a view of the majestic ocean, and is an ideal spot for the successful pursuit of study.

It traces its origin to the year 1868, when five pioneer Sisters of the Holy Names, of Hochelaga, Canada, at the request of Rev. Father Allard, came to Key West, to open a school for girls. For seven years, the Sisters taught in a two-story building on Division street. In 1875, they erected the main building of the present convent whose harmonious architectural lines are so well known to residents of Key West, and so justly admired by strangers.

Year by year, the school has steadily advanced in every department, until it has now become an institution that ranks among the best equipped and best patronized educational establishments in the South.

The aim of the Convent faculty is to impart an education at once comprehensive and practical.

All the branches that constitute the ordinary training of women are carefully taught by competent instructors. Pupils are prepared with a view to the position in life to which they aspire, and are taught to cultivate every Christian virtue and womanly grace indispensable to the true mistress of the home. Religion receives the prominence due to it as the sure source of those virtues that give fragrance to life here below, and title to happiness hereafter. No undue influence, however, is brought to bear upon the religious convictions of non-Catholic students. The system of education is so arranged as best to cultivate the heart, develop the mind, train the hand, and refine the character.

Special stress is laid upon the laws of etiquette, which in reality receive their force and sanction from the sweet inspiration of religion. Instructions in politeness are given regularly and infractions of the rules of courtesy are promptly but kindly corrected. In this way, by practice as well as by precept, are engrafted upon young minds and hearts the habits of refinement that are so desirable for their own sake and are so essential to real success in life.

Academic, Normal, Commercial, Music, Art, Needlework and Kindergarten courses are open to pupils. Gold medals are awarded upon the satisfactory completion of all the courses destined for seniors. The school term extends from the first week of September to the last of June.

The Alumnae Association of the Convent includes in its membership many of the most prominent women of the city, both Catholic and non-Catholic.

The Sisters are also in charge of St. Joseph's School for boys, and of St. Francis Xavier's for colored children. Both have a large attendance.

PREFACE.

We herewith present our second edition of the Key West City Directory.

We have endeavored to surpass the high standard of the previous edition and give to Key West a directory which is as complete as it is possible to make one.

By actual count there are 7,117 names in this volume of persons over the age of 16 years. This multiplied by 3—the multiple which we find is the nearest correct to account for the women and children whose names are not given—gives the city a population of 21,351.

This is an excess of 1,406 over the U. S. census of 1910 which looks very promising for the future of Key West.

With the advent of the Florida East Coast Railroad which will be opened in the course of a year we have no doubt that Key West will show a very material increase and soon rank as one of the leading cities in Florida.

To the business men and the citizens in general we extend our thanks for the patronage given and the courtesy shown us while canvassing the city.

Respectfully,

THE PUBLISHERS.

EXPLANATION OF STORM INFORMATION AND HURRICANE SIGNALS

Storm Signal—A red flag with a black center indicates
that a storm of marked violence is expected
The pennants displayed with the flags indicate the direc-
tion of the wind; red, easterly (from northeast to
south); white, westerly (from southwest to north)
The pennant above the flag indicates that the wind
is expected to blow from the northerly quadrants;
below from the southerly quadrants
By night a red light indicates easterly winds, and a
white light above a red light westerly winds
Hurricane Signal—Two red flags with black centers dis-
played one above the other indicate the expected
approach of tropical hurricanes and also of those ex-
tremely severe and dangerous storms which occa-
sionally move across the Lakes and northern At-
lantic coast
Night hurricane signals are rockets

ESTABLISHED 1898

Ruth Hargrove Institute United Street

A high grade boarding and day school for boys and girls.
Faculty of fifteen college trained teachers, all of whom
are specialists in their respective departments.

Course covers twelve years and the graduates are admitted
by certificate to all leading colleges and universities.
School of Music unsurpassed in Florida.

Kindergarten course of three years. Children brought to
school in wagon under care of teacher.

Considering the standing of the school, tuition rates are
the cheapest in the city.
