

1927 Key West Florida City Directory

This work is in the public domain in the United States. Any user may copy, distribute, adapt, display, or broadcast it without restriction.

Preserving history...one story at a time...

Yesterday Press is dedicated to reprinting titles that are in the public domain and offering them to the public in order to share history and preserve the stories and records of the past. All reprints are carefully matched against the originals and with the exception of minor font and formatting changes to fit the current day, all spellings, punctuation, paragraph breaks, chapter headings, etc. are preserved from the original.

POLK'S KEY WEST CITY DIRECTORY

1927-1928

COMPRISING

MISCELLANEOUS SECTION (page 17), containing Municipal and County Government information, Churches, Fraternal, Secret and Benevolent Societies, Etc.

BUYERS' GUIDE (page 37)—Advertisements of leading houses in all lines where more information than is possible to give under the headings, is placed on file for Buyers' Reference, the value of which department cannot be overestimated. It is an index to the best interests of the city, and stands for them and the city in reference libraries all over the county as well as on the desks of progressive business men. It is accessible to everybody and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men as a glance at this department will show.

ALPHABETICAL SECTION (page 57), gives names, occupations and addresses of all men twenty years old or over, together with wife's name where married, also widows with given name of husband. Full Copartnership and corporation information is contained in this department, together with complete business and professional information. Names in large type are those who realize the value of placing themselves where they may be speedily and conveniently found.

STREET and AVENUE GUIDE (page 39), showing all streets and avenues with starting point, Etc.

CLASSIFIED BUSINESS DIRECTORY of KEY WEST (page 247). All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross indexed to a descriptive space in the "Buyers' Guide." More goods are bought and sold through classified Directories than through any other medium.

KEY WEST

NATURE'S IDEAL SPOT

Key West's greatest asset is its climate, which is the most equable in the United States. However cold it may be elsewhere, with every other city in Florida in the grip of Jack Frost, Key West stands out singly as the only city in the country that is frost-free. With its every shore lapped by the warm salt water from the Gulf Stream, the island is protected from the cold blasts of winter and her climate at this season is one continual succession of sunshiny days and balmy breezes. Conversely, the same salt water which helps to make Key West the warmest city in the United States in winter is also an active agent in making it the coolest in summer. The term "land breezes" which bring sweltering heat and humidity to other places never occur in Key West for it matters not from what direction the summer winds blow, they first sweep over the bosom of the sea bringing with them refreshing ozone. When other cities are reporting temperatures in the 90's, the temperature in Key West ranges from 75 to 85 degrees.

The city's freedom from disease is phenomenal and the principal cause of this unusual condition is attributed to the sea breeze and its purifying effect. No typhoid or pneumonia is reported here for months at a time, and malaria is not contractable on the island, people often arriving in Key West inoculated with that disease discovering after several months' residence that they have become free of it. It was established more unequivocally in the flu epidemic of 1918 that Key West's climate is a disease-resisting one when it was found that deaths from the flu were proportionately far smaller than the records in any other city in the United States. The mild climate here prevents the germ from becoming as virulent as it has in other climates and many a wreck from this ravaging terror has regained health in the Key West sunshine and salt air.

Key West, due to its geographical position, has many advantages peculiar to itself. It is the nearest port in the United States to the Panama Canal. It is the gateway to Cuba, the West Indies, and Central America. Key West is the terminus of the Florida East Coast Railway, which embraces that eighth wonder of the world; the Key West extension, linking together the chain of Florida Keys, so that passengers leaving New York will find themselves on the threshold of Cuba in 36 hours without leaving the train they entered in the northern metropolis. This wonderful feat of engineering was made possible through the ambition of a master mind who conceived the project, deemed it feasible in the face of expert advice to

the contrary, and made his dream a fact. That person was Henry M. Flagler and his name has been a by-word for progress and accomplishment ever since. Key West has the finest natural harbor on the Gulf, capable of berthing the navies of the world. Vessels carrying thirty feet of water can anchor in the outer harbor, while those carrying twenty-six feet dock in the inner harbor.

The huge ferries operating between Havana and Key West arrive daily with solid trains of freight from the Island Republic. These trains are filled with fruit, tobacco, sugar and other Cuban products which are shipped to various northern cities without transfer, thus expediting traffic in a most efficient manner. One of the most potent examples of the saving in time effected by this ferry service is given in the shipments of pineapples from the Isle of Pines. These pineapples arrive in solid carloads packed, are repacked two cars to three on the Key West pineapple rack, and delivered in Chicago twenty-four hours earlier than possible in any other method of shipment. The P. & O. Steamship Company has four passenger steamers, the palatial "Cuba" and "Governor Cobb" and the "Miami" and "Northland." A daily service between Key West and Havana is scheduled and bi-weekly trips are made between Tampa and the Island City. The trip from Key West to Havana is 105 miles and consumes about six hours' time. The larger steamers have a capacity of 425 passengers each and make regular trips and fast schedule of time between Port Tampa, Key West, and Havana, connecting at Key West with the Florida East Coast Railway and at Port Tampa with the Atlantic Coast Line, both roads having through trains to important points in the United States and Florida. The steamships and the Florida East Coast Railway use the same terminals, thus facilitating the transfer from train to ship and vice versa.

Two ships of the Mallory line arrive weekly from New York and two from Galveston. Passengers leaving New York at noon will arrive in Key West four days later, leaving that port within a few hours for Galveston, the entire trip consuming about one week. The boats are splendid steamships with commodious state rooms and the cuisine is excellent.

Negotiations are now underway between the United States and Cuban governments looking to the establishment of a daily mail and passenger aeroplane service between Key West and Havana. The trip to Havana on one of these flying boats will be made in seventy-five minutes, and connections are made with outgoing boats and trains.

Key West is considered by the Federal Government to be the "Gibraltar of America." For that reason, Key West has one of the most important naval stations in the country, together with a large coaling station, machine shops, marine railway, and ample docking facilities. One

of the most powerful wireless stations in the world is located in the Naval Station grounds, and it is so powerful that, connected with it, the distant control station is at the other end of the island.

Key West is frequently the rendezvous of bombing and torpedo plane squadrons, battleships and cruisers and other naval vessels. It is also the headquarters of the Seventh Lighthouse District, the Seventh Naval District, an Army Barracks, Naval Base Hospital, Marine Hospital, Naval Air Station, Coast Guard Patrol Base, and Submarine Base, the last named costing \$2,500,000, are located here, as are the Immigration Service, Customs Service, and Weather Bureau Station, Plant Quarantine Service and Biological Station.

Key West produces the best Havana cigars manufactured in this country. Havana tobacco is used and because of the similarity of the climates of Cuba and Key West, conditions are ideal for working the tobacco here. There is no difference between a cigar manufactured in Key West and those made in Havana. This is one of the main industries of the town and thousands of people are employed in the various factories whose total output is over sixty million cigars annually.

Key West has immense shipping interests, both coastwise and foreign. The imports and exports are several times larger than those of any other port in Florida, and from year to year this business is increasing substantially.

Key West has the only green turtle canning factory in the country. Its fishing industry is the largest in Florida. Fish and crawfish are shipped to all parts of the United States, and thousands of pounds of fish are shipped several times a week to Cuba. The gamiest fish in the world abound in Key West waters. They include the Tarpon, famed as the silver king, the barracouda, the muttonfish, the sailfish with its mighty pike and gulf-blue sails that shimmer in the rays of the sun like watered silk; the dolphin, amberjack and kingfish, and numerous other kinds of fish capable of giving the devotee of rod and reel a thrilling struggle.

Sponging another important industry, affords occupation to a large percentage of the natives. The sheep-wool sponge, famous for its great utility, is obtained from the bars in the vicinity of Key West in such large numbers that the industry has become the largest in the country. Throughout the year a fleet of boats bring sponge to the Key West market where it is clipped, packed and shipped to various points in the States. Until sponge was discovered in these waters, the only source of supply was from the Mediterranean countries, so that the importation of this article made the finished product unusually expensive. Since the industry has begun here, the same

quality of sponge can be secured at much less expense and a greater saving of time.

Key West has one of the finest hotels in the United States and it is the newest and most modern hostelry owned by the Florida East Coast Hotel Company. This hotel is known already throughout the country as "Casa Marina," and many of the wealthy tourist class are making a habit of reserving suites at this "House by the Sea" for a number of weeks each season. Casa Marina is built of reinforced concrete, and modeled after the Spanish architecture, so appropriate to this climate, with its arched loggias and spacious, high-ceiled rooms. The hotel is virtually at the ocean's edge, its sunny verandas being within a few yards of the breakers.

There are three commercial hotels located in the business section with modern accommodations and within easy access to boats and trains. These are the Jefferson Hotel, the Oversea Hotel and Hotel LaConcha, a six story fireproof building. Other hotels are the Island City Hotel and Panama Hotel. There are two first-class boarding houses here, the Watrous House and the O'Brien House, Home cooking is a specialty and the cuisine is splendid.

No other city in the country, proportionately, has better school facilities than Key West. Monroe County of which Key West is the county seat, makes it a point always to act in time to avoid congestion in the public schools. Recently \$200,000 was appropriated for the building of more schools in the county. Work on the new building for Key West, which is to cost approximately \$200,000, has already been begun. There are also several private schools here. The convent of Mary Immaculate has a curriculum comparable with any other school of its kind. The same thing is true of St. Joseph's College where boys are taught by the Sisters. Academic courses, normal courses, commercial art, needlework, kindergarten courses compose the departments taught in the former institution. There are also other smaller private schools and kindergartens throughout the city for the instruction of the young. The Methodist have a Cuban mission with a teaching faculty for the Cuban poor that is doing effective work in that quarter.

Key West has three Methodist Churches, a Methodist Mission, a Baptist Church, a Catholic Church, an Episcopal Church, a Congregational Church, a Christian Science Church, Church of United Brethren, Jewish Synagogue. All of these churches have active congregations and the religious atmosphere here is unusually pronounced.

Key West has a bank known as the First National, one of the soundest institutions of its kind in the state, Federal and private hospitals, three theatres, bathing

pavilions, and Athletic Club, boating facilities for fishing or cruising through the Keys, a Chamber of Commerce, lodges of all the foremost orders, a paid Fire Department, self-supporting Public Library, and Elks Club.

Key West has daily newspaper service, the Key West Citizen, which is issued every afternoon from its offices on Duval Street and the Key West News.

Key West now has more than thirty miles of paved streets and work is now in progress on a new boulevard, approximately 100 feet wide and 6 miles in length. When completed this will be one of the finest roads in the State.

Key West has an electric plant, two ice and cold-storage plants, a gas plant and motor bus service running from one end of the island to the other.

A fifty thousand dollar yacht basin with attendant real estate development is now in progress, and the future for Key West never looked more promising than it does now. As a winter resort there is no other city in the United States that can compare with it in climate and fishing, which, together with the construction of the Key West Country Club, with its wonderful golf links and the added attraction of two beautiful municipal parks tend to make Key West an unusually desirable tourist's resort, and now that the eyes of capitalists are opened to the opportunities to be found here, Key West may soon become one of the prettiest winter resorts in the United States.

THE CHAMBER OF COMMERCE OF KEY WEST

The Chamber of Commerce of Key West is a live organization which has had much to do with the progress of the city and is responsible for many of its more modern tendencies. It is representative of the commercial, professional and manufacturing interests of the city and had its inception in a desire to promote their growth in home building, in manufacturing industries, in civic improvement and in commercial importance.

DIRECTORY LIBRARY

A library of City and County Directories and State Gazetteers has been installed by us in the offices of the Chamber of Commerce for the free use of our patrons. As the latest Directories are issued, they will be added to the Library, thereby keeping it up-to-date from year to year. We extend a cordial invitation to each and every one of our subscribers to make frequent use of the Library and to consult the Directories on file as often as desired.

MUNICIPAL PUBLICITY Advertising Key West

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site and as an educational center. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country the publishers place copies of this issue of the Directory in Directory Libraries which are maintained in all the larger cities of the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Key West, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves and their friends for this Directory, and also the public-spirited and progressive business and professional men for the support given in the way of patronage.

EXPLANATION OF STORM INFORMATION AND HURRICANE SIGNALS

Storm Signal—A red flag with a black center indicates that a storm of marked violence is expected

The pennants displayed with the flags indicate the direction of the wind: red, easterly (from northeast to south); white, westerly (from southwest to north). The pennant above the flag indicates that the wind is expected to blow from the northerly quadrants; below, from the southerly quadrants

By night a red light indicates easterly winds, and a white light above a red light westerly winds

Hurricane Signal—Two red flags with black centers displayed one above the other indicate the expected approach of tropical hurricanes and also of those extremely severe and dangerous storms which occasionally move across the Lakes and north Atlantic coast

Night hurricane signals are rockets

Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

LIST OF NAMES

Any Business — Any Locality

Accurate and Up-to-the-minute

WE publish over 500 Directories—City, County, State, National and Trade. We furnish real live up-to-date lists of all trades and professions.

As directory publishers we frequently have available for lists the manuscript copy from which directories are being compiled, and thus you may secure information in advance of publication, a service that cannot be had elsewhere.

We have no trade lists—our information is taken from the latest sources, and above all things, is accurate.

R. L. POLK & CO., Publishers

KEY WEST CITY DIRECTORY (1927)

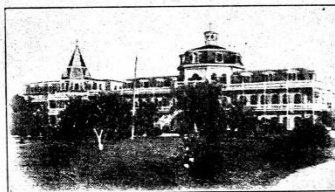

SCHOOLS AND COLLEGES

CONVENT OF MARY IMMACULATE

Accredited by the State of Florida

KEY WEST, FLORIDA

**A Boarding and Day School
for Girls; An Ideal Location**

THE Convent of Mary Immaculate, situated at a convenient distance from the heart of the city, commands a view of the majestic ocean, and is an ideal spot for the successful pursuit of study. It traces its origin to the year 1868, when five pioneer Sisters of the Holy Names of Hochelaga, Canada, at the request of Rev. Father Allard, came to Key West to open a school for girls. For seven years the Sisters taught in a two-story building on Division street. In 1875 they erected the main building of the present convent, whose harmonious architectural lines are so well known to residents of Key West, and so justly admired by strangers. Year by year, the school has steadily advanced in every department, until it has now become an institution that ranks among the best equipped and best patronized educational establishments in the south.

The aim of the Convent faculty is to impart an education at once comprehensive and practical. All the branches that constitute the ordinary training of women are carefully taught by competent instructors. Pupils are prepared with a view to the position in life to which they aspire, and are taught to cultivate every Christian virtue and womanly grace indispensable to the true mistress of the home. Religion receives the prominence due to it as the sure source of those virtues that give fragrance to life here below, and title to happiness hereafter. No undue influence, however, is brought to bear upon the religious convictions of non-Catholic students. The system of education is so arranged as best to cultivate the heart, develop the mind, train the hand, and refine the character.

Special stress is laid upon the laws of etiquette, which in reality receive their force and sanction from the sweet inspiration of religion. Instructions in politeness are given regularly and infractions of the rules of courtesy are promptly but kindly corrected. In this way, by practice as well as by precept, are engrafted upon young minds and hearts the habits of refinement that are so desirable for their own sake and are so essential to real success in life.

Academic, Commercial, Music, Art, Needlework and Kindergarten courses are open to pupils. Gold medals are awarded upon the satisfactory completion of all the courses destined for seniors. The school term extends from the first week of September to the last of June.

The Alumnae Association of the Convent includes in its membership many of the most prominent women of the city, both Catholic and non-Catholic. The Sisters are also in charge of St. Joseph's School for boys, and of St. Francis Xavier's for colored children. Both schools have a large attendance.

A natural by-product of the Directory business is the
compilation of Mailing Lists. If interested, ask for our
Free "List of Mailing Lists."

The
DIRECTORY
as a
MARKET
PLACE

THE
DIRECTORY
IS THE
GREATEST
MARKET
PLACE
IN THE
WORLD

Every Day
in the Year
the Directory
Tells Where
All Kinds
of Goods
and Service
Can Be Had
The Directory
is the Natural
Source of
Information
and is "On
the Job"
365 Days
Every Year

TRADE! You like
to patronize those concerns
who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this association have subscribed to the following

STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.
